PROFILE

BSc Informatics student at the University of South Africa (UNISA), passionate about technology and problem-solving. Interests include software development, networking, AI, and digital transformation. Practical experience with network diagnostic testing, C++ programming, and Python/Qt development. Strong analytical skills and attention to detail.

EDUCATION

BSc Informatics — University of South Africa (UNISA)

Expected Graduation: 2028

Coursework: Programming Fundamentals, Database Systems, Computer Networks, Systems Analysis & Design, Discrete Mathematics

SKILLS

Programming & Development: C++, Python, Qt Framework, HTML, CSS, JavaScript

Networking & Infrastructure: TCP/IP, DNS, DHCP, Network Diagnostics, Command Prompt

Tools & Platforms: Windows 11, Linux, Git, GitHub, Vercel

Other: Systems Analysis, Problem-Solving, Technical Documentation

PROJECTS

Network Diagnostic Testing

Command-line network investigation: ipconfig, ping, tracert, nslookup with documented analysis.

C++ Console Application

Object-oriented C++ application with data structures, file I/O, and input validation.

Python Qt Desktop Application

Cross-platform GUI application built with Python and the Qt framework.

CERTIFICATIONS

- Introduction to Networks — Cisco Networking Academy (2025)
- Python Essentials — Cisco Networking Academy (2025)
- IT Support Fundamentals — Google / Coursera (2024)

EXPERIENCE

Open to internships, vacation work, and entry-level roles in software development, IT support, and networking.
